

# COVID-19 SAFETY recommendations for FOR TOURISTS

1

You can help to reduce the risks of Covid-19 for yourself, your travel companions and local community members. Please listen carefully to your tour guides and follow their advice

2

Bring your own mask, alcohol-based hand sanitizer and personal items, such as water bottles. Use your hand sanitizer before, during and after activities, or contact with any tools or objects

3

Do not share your personal belongings with other people, or accept food or drink from shared containers or plates. When shopping, please don't touch items unless you intend to buy them

4

Please, always keep at least 6 feet of physical distance from local community members during the village visit; even when you are having fun taking photos, selfies, greeting or talking to villagers. Please do not shake hands, hug or touch local people. Please take special care to avoid contact with local children and elderly people, who may not understand physical distancing

5

If you experience symptoms in the village (fever, cough, loss of smell and taste): stay calm, remain isolated and inform your tour guide. He or she will explain what to do and will help you

PLEASE FOLLOW THE GUIDELINES AND STAY SAFE!
