

COVID-19 SAFETY recommendations for LOCAL ARTISANS AND PERFORMERS

1

Visits to meet artisans must be organized outside artisans' homes

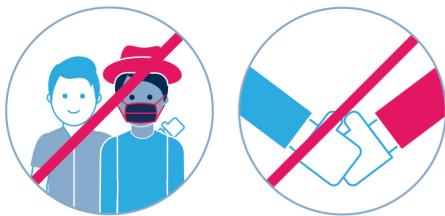

2

An appropriate area should be prepared, with sufficient shade and shelter from rain or heat. If any equipment is prepared for tourists to enjoy a hands-on experience, it must be cleaned thoroughly with soap and water, alcohol or a suitable cleaning product before each group

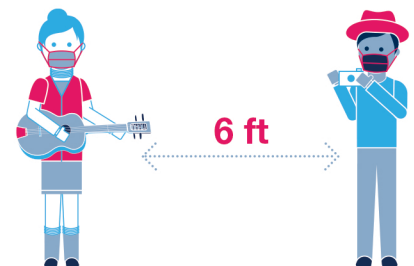

3

Artisans must not have any physical contact with visitors during craft demonstrations or hands-on experiences (weaving, fishing, shopping, etc.)

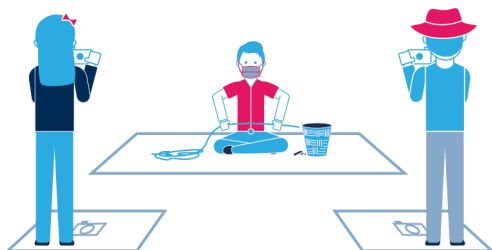

4

During arts performances, there must be sufficient physical distancing, of at least 6 feet between performers and tourists, and between groups of tourists

5

A good photo spot should be arranged in advance, so that visitors and community members can take an attractive physically distanced photo

PLEASE FOLLOW THE GUIDELINES AND STAY SAFE!
